

## **GET HAPPY**

**(chorus)**

**Come on get happy  
Come on get happy today.  
Come on get lucky  
We'll dance our troubles away.**

**Come on get happy,  
We're going to swing with the man.  
Come on get lucky,  
We'll JetSet to Japan.**

## **CHORUS**

**Come on get pretty,  
We'll wear our shades in the dark.  
Come on get lovely,  
We'll dance and skip in the park.**

**Watch the sunset out West,  
Eat and drink with the best.  
Count the stars in the sky,  
Wait for my kiss goodnight.  
Dance the Mambo till noon,  
Wake and bark at the moon.  
A day of roses and wine  
For my sweetest Valentine.**

## **CHORUS**

**Shakes a stick in my face then  
She rattles the drum.  
I shoot my mind into space,  
It shoots right over the sun.  
Got me bent out of shape  
Got me under the thumb.  
In a panicky state  
With my back to the gun.**
