

ALL I WANTED

(a. aparicio)

**All these desolate days
You never told me goodbye
All your decadent ways
Still you promised the sky
I got my feet on the ground
I put my face to the sun
I've seen the screen getting smoked
I feel my eyes getting burned**

**All your precious sharades
All your devilish jokes
All the scars that you made
All the people you broke
I got my head in the clouds
I got my back to the wall
I want to make you my Queen
I want to give you my all...**

**All I wanted was to be loved
All I wanted was to be heard
All I wanted was the sweetness of your mouth
All I wanted was some peace
All I wanted was the world
All I wanted was a stage to play my part**

**My ladybird
My friendship ring
My scarlet face
My favorite things
My diamond hand
My plastic trees
My bleeding heart
My fake disease**

**All I wanted was to be loved
All I wanted was to be heard
All I wanted was the sweetness of your mouth
All I wanted was some peace
All I wanted was the world
All I wanted was a stage to play my part
You're all I wanted
All I wanted**

All I wanted
All I wanted
All you need is love...
